Kim,

James Konat has taken over that case; I forwarded your inquiry to him.

Thanks

Jeff

Jeff,

I am checking on a case that we meet about over a year plus plus ago where you were interested in a reconstruction of the scene that Kay S. did not provide to see where it is. Since I haven't heard from you or the detective, I am thinking that it is really cold again or has been adjudicated without further work. I truly do apologize for not having been able to get to this request yet (embarrassingly I just can't seem to dig myself out from so many requests) and am wanting to know if the work still needs to be done. I expect that it does.

The victims were Stacy Falcon-Dewey and Jacob Dewey. It is a Renton P.D.; their case number 94-11149 and our case number 194-5982. At your convenience, please let me know where things stand and what your needs still may be.

Thanks for your understanding.

Kim
